AOFOG 2026

Equivolution:
Equity and Sustainability in Women's Health
12 –15 October | Sydney | Australia

Hosted by RANZCOG

STOP REPORTING DATA. START USING IT.

Using Maternity Data to Improve Outcomes
AOFOG 2026 Pre-Congress Workshop
Monday 12 October | Sydney Australia

This hands-on, interactive workshop is for clinicians and maternity leaders who want maternity outcome data to change practice, not sit in reports.

Learn how to:

- **Use TGCS as a practical clinical tool,** not just a reporting framework
- Interpret **variation in outcomes** across different units, models of care, and health systems
- Work **with imperfect, real-world data** and still draw meaningful clinical insights
- Translate **outcome data into local action,** leadership conversations, and quality improvement

Want to Submit your Data?

Units may submit TGCS-based outcome data. Register for the workshop to receive the template and instructions.

- **Up to 12 datasets** will be selected for interactive discussion
- Selected units receive **$100 off registration**
