AOFOG 2026 Pre-Congress Workshops Spotlight

This practical workshop helps clinicians and maternity leaders use the Ten Group Classification System (TGCS) to better interpret maternity outcome data and apply it in real clinical settings. It focuses on understanding data in local context, working with real-world imperfect datasets, and using insights to support quality improvement and leadership discussions rather than performance comparison or judgement.

* Each of the Pre-Congress Workshops has been priced separately and can be booked independently of the Congress.

AOFOG 2026 Social Program Highlights
